

**Classified Publications of Prof. Reichertz from the Selected Publications Bibliography
with 111 manuscripts from 1965 to 1987***

The 111 publications from the Selected Publications Bibliography (see appendix 23) were listed in Gustav Wagner's and Donald Lindberg's **Selected Bibliography** published in 1987 (see appendix 11, SB in uppercase letters for original contributions, sb in lowercase letters for books, numbers by R.H.), in **PubMed/Medline** (PM, query from February 27, 2019, see appendix 12), and/or in **Web of Science** (WS, query from March 1, 2019, see appendix 13), for PM and WS with respective reference numbers of the queries.

Appendix 31 to: Haux R. On Analyzing the Scientific Publications of Peter Reichertz: Reflections in the Light of Medical Informatics Knowledge Today. April, 2019.

These publications of Prof. Reichertz have been classified according to the dimensions major topics, fields of publication, and publication languages, with classes

major topics

medical informatics

- i: introducing and reflecting on medical informatics as new discipline
- e: biomedical and health informatics education

informatics applications in medicine and health care

- d: ... for diagnosis and diagnostic decision support
- a: all other applications

health information systems

- h: hospital information systems, their architectures, functionalities, organization, incl. patient databases
- o: information systems for outpatient care, e.g. in medical offices
- t: transinstitutional aspects of information systems for health, as in 'h: hospital information systems, ...', but beyond one institution (e.g. beyond one hospital)
- s: *data protection*, comprising data privacy and security
- .: *others*

fields of publication

- m: *medicine*, except medical informatics
- i: *medical informatics*
- c: *computer science* (German: Informatik), except medical informatics
- .: others

publication languages

- e: English
- g: German
- .: others
